

RESIDENTIAL AUTO REPAIR REGULATIONS

The City of Dublin recognizes that repair services provided by an auto repair shop can be very costly and that some resident car enthusiasts simply enjoy working at home on their own vehicles. However, if left unchecked, excessive residential vehicle repair can become a neighborhood nuisance. For this reason, the City of Dublin has adopted relevant regulations that permit the repair of vehicles in a residential district provided that certain requirements are adhered to. The following questions are commonly asked regarding residential auto repair:

CAN I REPAIR MY VEHICLE ON THE STREET IN FRONT OF MY HOUSE?

No. The repair of vehicles on any public street is prohibited except for temporary repairs as a result of an accident or emergency.

WHERE CAN AUTO REPAIR BE CONDUCTED ON A PRIVATE RESIDENTIAL PROPERTY?

Other than the garage, vehicles being repaired within the side or rear yards must be shielded from public view at all times. Please note that no sound associated with the repair of vehicles shall be audible from any property line.
