

**Steel Watercolor #99, Fletcher Benton, 1989**

Created in 1989 by Fletcher Benton, and located at the Civic Center, “Steel Watercolor #99” has been a part of the Dublin landscape since it was placed here on loan in 1996. The owners, KLMLP, L.P., donated the sculpture in 2016, so it could remain where it had long stood and continue to be enjoyed by the public. Fletcher Benton, an American sculptor and painter from San Francisco, California, was widely known for his kinetic art as well as his large-scale steel abstract geometric sculptures.
