RECITALS

- A. On November 19, 2015, the Regional Water Quality Control Board, San Francisco Bay Region, adopted Order R2-2015-0049, CAS612008, issuing the Municipal Regional Stormwater NPDES permit ("MRP") for the San Francisco Bay Region; and

As part of this program, the City is required to ensure that all installed stormwater measures are adequately operated and maintained by entities responsible for such stormwater treatment systems or measures, such as the Property Owner; and

- F. The City is the permittee public agency with jurisdiction over the Property.
- G. The Property Owner, its administrators, co-owners, executors, successors, heirs, assigns or any other persons, including any homeowners association (collectively hereinafter referred to as "Property Owner") recognizes that the full trash capture device(s) must be installed and maintained on the Property as indicated in this Agreement and as required by the MRP; and
- H. The City and the Property Owner agree that the health, safety and welfare of the citizens of the City, together with the provisions of Dublin Municipal Code Chapter 7.74 and other applicable City guidelines, require that the full trash capture device(s) detailed in Exhibit B are to be constructed, operated and maintained on the Property by the Property Owner; and
- I. The Property Owner accepts the responsibility for constructing, operating, and maintaining the full trash capture device(s) on the Property.

NOW, THEREFORE, with reference to the above recitals and in consideration of the mutual promises, obligations, and covenants herein, the Property Owner agrees as follows:

SECTION 1: CONSTRUCTION OF FULL TRASH CAPTURE DEVICE
