

COVID-19 UPDATES & INFORMATION

January 21, 2022 Special Notice

Alameda County Updated Isolation and Quarantine Guidance

The Alameda County Isolation and Quarantine [Orders](#) have been updated to reflect new isolation and quarantine guidance. Employers should continue to follow the recently updated Cal/OSHA [guidance](#) and [Fact Sheet](#), which is aligned with the California Department of Public Health's Isolation and Quarantine [Guidance](#).

Cal/OSHA Re-Adopted COVID-19 Prevention Emergency Temporary Standards

On January 14, 2022, the Cal/OSHA Re-Adopted COVID-19 Prevention [Emergency Temporary Standards \(ETS\)](#) went into effect. This re-adoption contains changes to the previous Cal/OSHA COVID-19 Prevention ETS. Employers should review the updated Cal/OSHA COVID-19 Prevention ETS to ensure compliance.

Cal/OSHA released a new [fact sheet](#) regarding What Employers Need to Know for COVID-19 Isolation and Quarantine to clarify changes to isolation and quarantine requirements now in effect.

For more information and for ongoing updates and new resources, please visit the [Cal/OSHA ETS webpage](#).

Sales of Alcoholic Beverages To-Go

Effective January 1, 2022, [Senate Bill 389](#) expanded off-sale privileges for certain restaurant license types, such as Types 41, 47 and 75, and certain alcohol manufacturer license types that operate a bona fide eating place at its premises of production, such as Types 01, 02, 23 and 74. The law authorizes these

license types to exercise the following privileges subject to specific requirements:

1. Sell distilled spirits in manufacturer-sealed containers (e.g., sealed cans or bottles) for off-site consumption as long as the order is picked up from the premises by the consumer and proper identification is displayed.
2. Sell for off-site consumption distilled spirits and single-serve wine that are not in

manufacturer-sealed containers (e.g., a cocktail or a serving of wine) subject to specific provisions outlined in statute.

Prior to exercising the privileges in item two above, licensees must notify the Department of Alcoholic Beverage Control of their intent to sell alcohol to-go in non-manufacturer sealed containers. Licensees must use the [Alcohol To-Go Notification Tool](#) to submit their notice of intent. Licensees eligible to exercise the privilege of sales of nonmanufacturer-sealed alcoholic beverages to-go may begin sales immediately after submitting the online notification and posting the required [warning sign](#).

The alcohol sold may only be that which is allowed by the license type (ex. Type 41 license types cannot sell distilled spirits). Beer cannot be sold in non-manufacturer sealed containers.

Licensees that have operating conditions prohibiting off-sale privileges are not authorized to exercise any of the above privileges that are contrary to their operating conditions.

For more information and before submittal of a notice of intent, please visit the [Requirements and Guidelines](#).

California Department of Public Health Guidance for the Use of Masks

The California Department of Public Health (CDPH) is requiring masks to be worn in all indoor public settings, irrespective of vaccine status, until February 15, 2022. This requirement will be updated as CDPH continues to assess conditions on an ongoing basis.

This measure brings an added layer of mitigation as the Omicron variant, a Variant of Concern as labeled by the World Health Organization, continues to increase in prevalence across California, the United States, and the world and spreads much more easily than the original SARS-CoV-2 virus and the Delta variant.

For more information, please visit [CDPH](#).

UC Berkeley Webinar for Creating and Implementing COVID-19 Protection Plans

UC Berkeley's [Labor Occupational Health Program](#) is providing free online webinars for employers to help create or improve COVID-19 Prevention Plans. This course is specifically designed for managers and supervisors working in the grocery, restaurant, retail, construction, and other industries where employees commonly come in contact with the public which puts them at higher risk for COVID exposure.

LOHP Safe Jobs.
Healthy Lives.

LABOR OCCUPATIONAL HEALTH PROGRAM
UNIVERSITY OF CALIFORNIA, BERKELEY

This interactive course will be conducted virtually via Zoom and will focus on the protections necessary for protecting employees from COVID-19 that are required by OSHA and Cal/OSHA. Although these classes will be held via Zoom, they will be interactive classes where participants get the chance to work on activities and interact with each other. Available dates and times include:

- January 27, 1:00-4:00 p.m.
- February 3, 1:00-4:00 p.m.
- March 3, 1:00-4:00 p.m.
- April 7, 1:00-4:00 p.m.

If you are interested in attending this webinar, please visit the [registration page](#). For questions or more information, please email mmp1998@berkeley.edu.

California Business Comeback Guide

The California Governor's Office of Business and Economic Development has published the January 2022 edition of the California Business Comeback Guide, intended to help businesses and for-profit entities identify relevant new and existing state funding resources for recovery and success. Download the guide [here](#).

For more information, please visit the Governor's Office of Business and Economic Development [website](#).
