

## Alameda County Public Health Department Rescinds Recent Indoor Mask Mandate

Alameda County Public Health Department officials announced today that **the most recent indoor mask mandate is being rescinded, effective 12:01 a.m., on June 25, 2022.** Masks will continue to be required, however, in public health settings; congregate settings such as homeless shelters and correctional facilities; and long-term care facilities.

Daily reported COVID-19 cases have peaked and continue to decline, and case rates are improving across each of the County's largest racial and ethnic groups, including Hispanic/Latino residents, who were disproportionately affected.

Businesses, venue operators, and hosts may choose to continue requiring patrons and workers to wear masks to lower COVID-19 risk in their settings.

Alameda County is also aligning with the State's quarantine guidance and definition of close contact, effective 12:01 a.m., on Wednesday, June 29, 2022. People who are close contacts but don't have symptoms should test within 3-5 days after last exposure and wear a well-fitting mask around others for a total of 10 days, especially in indoor settings and when near those at higher risk for severe COVID-19 disease. Anyone who develops symptoms should test immediately and stay home. Anyone who tests positive must follow isolation requirements.

Health officials also stated, "Vaccination continues to provide the best long-term protection against serious COVID-19 disease. Everyone six months and older is now eligible for safe, effective COVID-19 vaccines."
